Experience

Software Developer Intern May 2024 – June 2025

Centre for Advanced Computing *Kingston, ON*

- Built and maintained healthcare dashboards and applications supporting hospital teams and cervical cancer screening programs across Rwanda, Tanzania, and Kenya
- Improved dashboard load times from 12s to 2s by streamlining queries across 800k+ records and delivered fixes for a mobile application and backend used by 3000 unique clients
- Created data intake forms and visual reports that helped healthcare teams identify trends and flag patients for follow-up screening

IT Support Staff September 2023 – April 2024

Queen's University *Kingston, ON*

- Provided front-line technical support to students and faculty across key University platforms
- Used Microsoft PowerShell and Azure to identify and resolve registration, MFA, and account access issues
- Guided users through onQ, SOLUS, Office 365, OneDrive, MyQueensU, and related services using clear, step-by-step support

Data Quality Intern May 2023 – November 2023

Cohere *Toronto, ON*

- Reviewed, ranked, audited, and corrected data to improve quality and consistency
- Identified process improvements while evaluating 400+ AI-generated prompts daily
- Troubleshot Python, JavaScript, and JSON issues to support reliable model training data

Full Stack Developer Intern April 2023 – August 2023

City of Kingston *Kingston, ON*

- Helped build a scheduling service that improved how patients connect with healthcare professionals in the Kingston area
- Built secure workflows in an Angular-Firebase application used by 20+ locum doctors
- Contributed to a practical healthcare solution designed to support efficient scheduling and access to local medical services

Basketball Manager September 2022 – April 2023

Queen's University *Kingston, ON*

- Performed statistical analysis and recorded game data to support team performance evaluation and preparation
- Recorded and reviewed game footage to help identify team and opponent trends
- Assisted coaching staff with practices and supported day-to-day team operations

Junior Programs Instructor May 2022 – August 2022

University of Toronto *Toronto, ON*

- Led hands-on STEM activities for middle school students in a supportive learning environment
- Helped over 100 students across 8 weeks with both technical questions and interpersonal challenges
- Shared resources and guidance so students could continue learning beyond the program

Sports Usher September 2021 – April 2022

Queen's University *Kingston, ON*

- Supervised athletic and recreation events in order to provide safety and follow COVID-19 protocol
- Assisted with crowd management and provided directions and information to guests during athletic events
- Collaborated with event staff to ensure efficient venue operations and a positive experience for attendees

Education

Queen's University Kingston, ON

Bachelor of Computing with Professional Internship, Software Design Specialization *September 2021 – April 2026*
